

## 645

# **Dual Input Differential Manometer**

#### **Features**

Differential input with  $\pm$  29 PSI range.

Seven units of measure (mbar, kPa, PSI, mmHg, inHg, mH2O, inH2O).

Display - 4 digit dual line with backlight

Smooth - Stabilizes display when measuring fluctuating pressures

Data Hold - Freezes reading on display. Min / Max - Records Min/Max readings

Auto Off - Conserve battery power.

### **Specifications**

Measurement Range: ± 29 psi

Display: 4 Digit Dual line LCD with backlight

**Input Type:** Dual Differential (compression fittings)

Resolution (max): 0.01 psi

**Accuracy:** +/-(0.2% Full scale + 3 digits)

Functions: One Touch Zero, Data Hold, Back-light, Unit Selection,

Smoothing, Auto power Off, Min / Max Record,

**Resolution Selection** 

Units of Measure: 7 Units (mbar, kPa, PSI, mmHg, inHg, mH2O, inH2O)

Battery Type: 9V alkaline Battery Life: 80hours (Typical) Auto Power Off: 30 minutes

Standard Accessories (Included): 9V alkaline battery (A009A),

replacement tubing (A601)

## **Features**
