

# Condition Based Monitoring

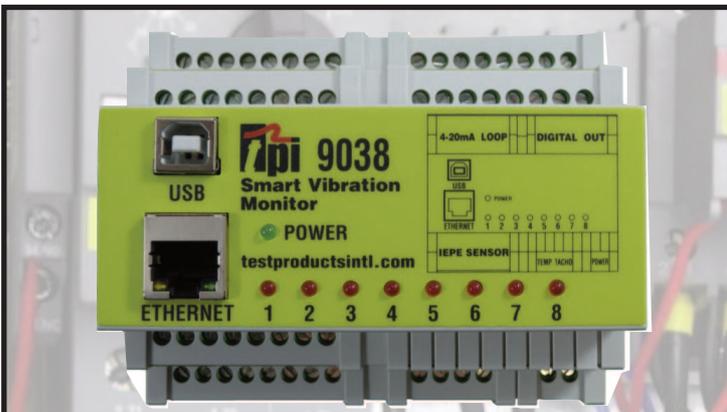

Tools to monitor, analyse & interpret vibration.

**Smart Vibration Analysers: Analyse • Interpret • Save**

Condition based maintenance (CBM) is not just a technique for avoiding breakdowns. By identifying faults such as out of balance, misalignment, worn bearings etc. you can significantly reduce operating costs:

- Lower energy costs (out of balance and misaligned machines need a lot more unnecessary energy)
- Prolong component lifetimes (e.g. by reducing bearing wear)
- Lower repair costs (replacing worn bearings before they fail is a lot cheaper and much safer!)
- Reduce downtime (increase profitability)

**Smart Vibration Monitor 9034 & 9038: Online/Fixed Vibration Monitoring.**

Single low-cost unit monitors plant with local alarms, connects to high functionality PC analysis software AND connects to cloud-based monitoring and analysis software.

Extremely cost effective: lowest cost "per" channel industrial vibration monitor/analyser.

**Solutions for Pumps, Fans & Motors**

# If you have Pumps, Fans and Motors you need TPI Vibration Analysers!

Traditionally vibration analysis has been a specialist field and typically performed by vibration consultants using very expensive equipment. Vibration analysers from TPI

allow anyone to perform meaningful vibration analysis at an unexpectedly low cost. Easily and affordably detect worn bearings, faulty gearboxes, unbalance,

misalignment and looseness. By detecting early signs of machine failure, machinery can be repaired or replaced before an expensive breakdown occurs.

## Pumps

This style pump can have bearing problems or balancing issues. The motor is bolted directly to the pump and does not normally have alignment issues.

## Motors

The motor and pump are bolted to the frame and attached with a coupling. This can present bearing problems in the motor and pump, balancing issues due to damaged impellers, and also shaft misalignment between the two.

## Fans

Fans can also have bearing and balancing problems. A fan can be out of balance due to damage, dirt, or thrown weight. A bent shaft will also create a balance issue.

## TPI 9070 Vibration Analyser: analysis simply at the touch of a button!

TPI 9070 analyses & interprets readings:

- ISO machine alarms and Bearing Damage Units (BDU) reading indicate overall machine and bearing condition
- Clear picture of 1X, 2X & 3X machine problems detects imbalance, misalignment and looseness
- 800-line spectrum with zoom and cursor to identify complex issues

## TPI 9071 Smart Vibration Analyser with BNC cabled accelerometer with magnet for consistent readings

TPI 9071 analyses, interprets, and stores readings.

### Everything the 9070 can do plus:

- BNC cabled accelerometer with magnet for hard to reach test points and repeatable results
- Collect and store readings; 10 memory blocks with 20 readings per block for a total storage of 200 readings.
- Stored data is easily recalled and displayed.

## TPI 9080 Smart Trend Analyser

TPI 9080 analyses interprets & trends readings.

### Everything the 9071 can do plus:

- Asset management and trending with included VibTrend software. Ten assets with ten readings per asset.
- VibTrend Pro license allows an unlimited number of assets with ten readings per asset.

# Take a closer look at these rugged, hand-held analysers.

## TPI 9080 & 9080-Ex Smart Trend Analysers: Interpret and TREND

- **9080-Standard Includes:** A9018 accelerometer, curly cable & magnet & A9081A USB docking cradle in the A9087 carrying case & VibTrend standard software (up to ten assets with ten measurement points per asset)
- **9080-Pro:** As 9080-Standard **PLUS** VibTrend Pro software (up to 1,000 assets with ten measurement points per asset)
- **9080-Plus:** As 9080-Pro **PLUS** A9086 protective boot, A9082 tachometer, & A9072 100mm extended stinger
- **9080-Ex Includes:** Intrinsically safe version of the 9080-Pro with A9095 intrinsically safe protective boot, A9081A USB docking cradle, A9093 intrinsically safe accelerometer with A9073 magnet in the A9087 carrying case & VibTrend Pro software (up to 1,000 assets with ten measurement points per asset)

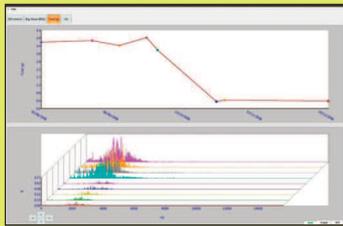

**9080-Standard, 9080-Pro, 9080-Plus: 3 Year Limited Warranty;**

**9080-Ex: 1 Year Limited Warranty**

### VibTrend Pro Software included with 9080-Pro, 9080-Plus and 9080-Ex.

Powerful, easy-to-use asset management and fault diagnosis ability.

VibTrend Pro Software gives you greater flexibility & options. Windows™ compatible.

- Store, analyse and report on all your vibration parameters in one place; unlimited assets with ten readings per asset.

### A9080 Bluetooth® Headset

For use with 9080 series. (excludes 9080-Ex) Industry approved ear defenders with Bluetooth headphones allow you to listen to bearing noise. Can also be used with smart phone. Sold separately to work with 9080-Standard, Pro or Plus kits.

A9082 stroboscope, tachometer and flashlight included with 9080 Plus kit. Also sold separately to work with 9080-Standard, Pro or Plus kits.

## TPI 9070 & 9071 Smart Vibration Analysers

Vibration Analysis at the touch of a button!

- **Affordable and easy to use.**

**9070:** Removable stinger to attach industry standard magnet (optional A9073) with 1/4"x28 thread. Provides faster, more reliable and repeatable readings.

**9071:** Features BNC cable mounted accelerometer with magnet. Useful for hard to reach machines and test points.

- **Built to last: rugged, reliable, IP67 waterproof, long battery life.** Not only does the rugged design and waterproof case keep the 9070 & 9071 working in demanding environments, but advanced technology ensures a long battery life - with 1,500 measurements (50 hours of normal use).

- **Helps prevent downtime and reduce maintenance costs**

**9070, 9071: 3 Year Limited Warranty**

Clear picture of:

- 1X, Unbalance
- 2X, Misalignment
- 3X, Looseness

# Selection Guide: what features fit your application?

# TPI 9041 Ultra II Does it All: Vibration, Balancing, Inspections.

## Benefits

- Analyses, interprets and trends vibration data. Automatically detects out of balance, misalignment, looseness and bearing defects
- Predictive analysis capabilities that accurately calculate time frame to failure
- Condition based monitoring analyses bearing wear and gear degradation
- Built-in single plane balancing enables correction of the most common cause of vibration (Dual plane balancing with additional accelerometer)

## Features

- Set up routes that include inspections
- User selectable defined envelope filters and demodulation functionality
- True simultaneous 3 channel capture
- High resolution (0.2 Hz) frequency spectra from 2 Hz to 10 kHz
- Rugged fully waterproof construction meets IP68 and MIL-STD-810F requirements

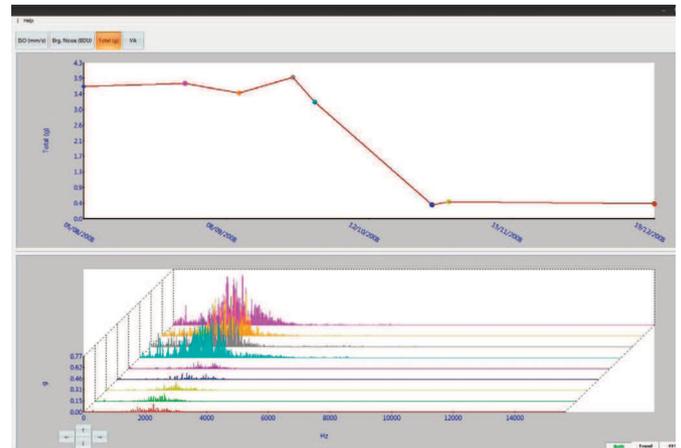

## 9041 Ultra II Includes:

- Software, tacho, accelerometer (one) and cables
- Carrying case with shoulder strap
- The 9041 has a 1 year limited warranty

## Includes C-Trend II, a powerful and easy to use asset management and fault diagnosis software.

### C-Trend II Software gives you greater ease of use and flexibility.

- Store, analyse and report on all your vibration and process parameters (e.g. oil pressures, temperature, run hours, etc.) in one place.
- All information is just a click away. Color coded alarms highlight problems. Trend lines show problems before they happen.
- Data can be accessed anywhere on any machine, with networking software. Plant history is everything and C-Trend II turns it into useful information with the click of a mouse!

## Optional, Additional or Replacement Accelerometers & Cables

**A9013** BNC to 2 Pin Cable

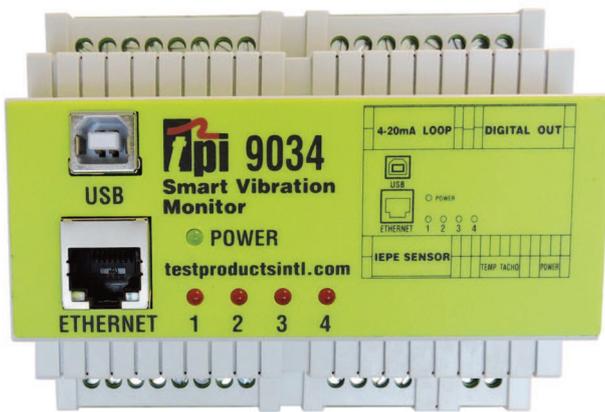

**A9014** 2 Pin Accelerometer

**A9017** BNC to 2 Pin Cable & Accelerometer

**A9018** BNC to 2 Pin Cable & Accelerometer inc. Magnet

# TPI 9034 or 9038: Smart Vibration 4 and 8 Channels

## Online/Fixed Vibration Monitoring

### Features:

- 4 accelerometer channel & 8 accelerometer channel versions
- 24VDC (relay drive) switched output for each channel (warning/critical, g or velocity)
- 4 to 20mA output for each channel (g or velocity)
- Temperature input
- Tacho Input
- USB or Ethernet connection to Smart Vibration Monitor PC software and optional Vibration Analysis software

### Advantages:

- Extremely cost effective – lowest cost/channel industrial vibration monitor/analyser
- Very easy to set up using included Smart Vibration Monitor PC software (C-Trend II Software available as optional purchase)
- 24/7 monitoring of critical plant operations

TPI Smart Vibration Monitor modules are perfect for extremely cost-effective monitoring of critical plants operations and when used in conjunction with the TPI 9070, 9080 and 9041, vibration analysers provide the complete CBM solution.

### TPI 9034, 9038 Benefits:

Single low-cost unit monitors plant with local alarms and connects to optional C-Trend II high functionality PC analysis software.

The 9034 and 9038 Smart Vibration Monitors are the new generation of low price-high performance installed vibration analysers from TPI. With up to 8 accelerometer inputs, 8 digital outputs, 8 analogue outputs, temperature and tacho inputs as well as USB and Ethernet connectivity the 9034 and 9038 offer unrivaled price per channel performance. The analysers can be used in several different ways:

- **Standalone Operation** – Connect up to 8 accelerometers and up to 8 relays and instantaneously monitor and alarm on-key vibration points. Using the included Smart Vibration Monitor PC software the alarms can each independently be set to trigger on/either a velocity level or a g level. If a tacho is connected, a speed range can be set so as not to activate during machine start-up or shut-down.
- **Legacy Systems Operation** – for each connected accelerometer, the Smart Vibration Monitor units can also output levels of vibration (g or velocity) as 4 to 20mA signals for connection to existing monitoring systems such as PLCs, etc.
- **PC Operation** – If a laptop/PC is connected via a USB or Ethernet, up to 64 modules can be monitored and the vibration levels displayed on screen. With the PC connected more detailed vibration analysis can be carried out with optional C-Trend II software.
- **C-Trend II** – By purchasing optional C-Trend II software it's possible to view and analyse the long term trend of all readings as well as being able to see FFT's of all logged data.

# Selection Guide: 4 Channel or 8 Channel Fixed Vibration Monitoring

	9034 Smart Vibration 4 channel		9038 Smart Vibration 8 channel
<b>Measurement</b>			
IEPE Accelerometer Input Channels	4		8
Accelerometer Sampling Frequency		25.6kHz	
4-20mA Output Channels	4		8
24VDC Digital Outputs	4		8
24VDC Dig. Output Current Max		100mA	
Digital Output Alarm		Acceleration or Velocity (Channel Selectable)	
Tachometer Input		1 (0V to any voltage upto +24VDC)	
Frequency Dependent Alarms		Yes (using Tachometer)	
Temperature Input		1 (Typically 10mV/°C)	
PC Connection		USB	
Internet Connection		Ethernet	
<b>PC Software</b>			
Vibration Alarms	4	Vibration	8
Temperature Alarm	1	Temperature	1
Alarm Choice		Acceleration AND/OR Velocity (channel selectable)	
FFT		Up to 12,800 lines	
Time Waveform		Yes, with optional C-Trend II Software	
<b>Electrical</b>			
Supply Voltage		USB or 24VDC	
Supply Current		500mA	
<b>Mechanical</b>			
Environmental		IP50	
Operating Temperature °C		0-55°C (32-151°F)	
Storage Temperature °C		0-55°C (32-151°F)	
Mounting		DIN Rail	
Part Number	9034		9038

**A9037:** 10m (32ft) with angled 2 Pin MS connector and flying leads

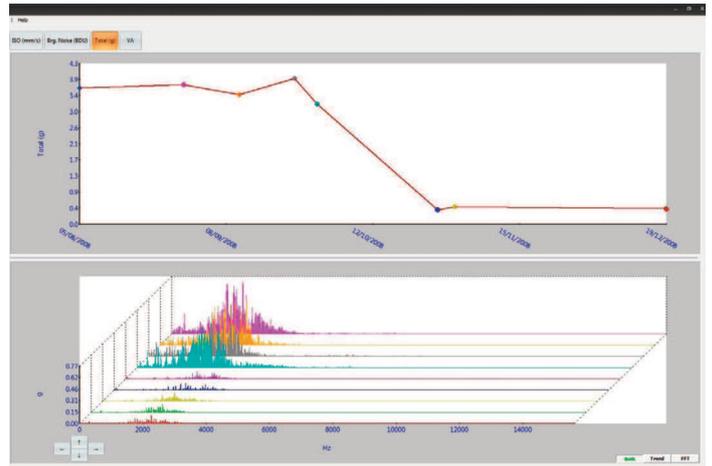

**A9038:** 15m (49ft) with angled 2 Pin MS connector and flying leads

# TPI is Your Vibration Monitoring Source. Accessories and More.

## C-Trend II Software for greater ease of use and flexibility.

- C-Trend II comes standard with the 9041 and is available optionally for the 9080 and 9034/9038 series.
- Store, analyze and report on all your vibration, lube and process parameters
- All information is just a click away.
- Data can be accessed anywhere on any machine, with networking software.
- Allows the user to create Plants, Areas, Locations, Sub Locations, Machine Trains, Machines, Machine Components, Vibration Measurement Points, and Inspection Measurement Points.
- Vibration readings are uploaded to PC and synced up against the correct asset.
- Trending graphs are created and various vibration information can be viewed.
- Alarm levels can be set and e-mails sent if a reading triggers an alarm after docking and syncing data back to the PC.

## A9080 Bluetooth® Headset

Industry approved ear defenders with built-in-Bluetooth headphones allow you to listen to the bearing noise. Also use with your smart phone. Sold separately to work with 9080-Standard, Pro or Plus kits.

For use with 9080 only

## A9082 Strobe

Stroboscope/flashlight attachment used to determine the speed of rotating equipment. Included with 9080 Plus kit. Also sold separately.

For use with 9080 only

## 377BT Infrared Thermometer

- Bluetooth Communication
- Laser Sighting to confirm target.
- Adjustable emissivity for maximum accuracy on all surfaces.
- °F or °C Selectable
- 11.5:1 Distance to Spot Ratio
- 3 Year Limited Warranty
- Temperature Range: -50 to 1,000°C
- K-Type thermocouple input for optional K-Type probe measurement.
- 0.1 Degree Resolution provides increased accuracy of reading.

## 505L Digital Handheld Tachometer

Combination photo and contact tachometer that also measures surface speeds of belts and wheels. Up to 25 feet in photo target mode.

- Measure motor input and output shaft speed
- Determine conveyor belt speed
- Confirm fan, motor, and gear RPM
- Measure RPM of flywheels and pumps
- Monitor pulley rotation RPM and turbine speeds

### Features

- Target (photo mode) is 25 feet
- Multifunctions: Photo Tach & Contact Tach & Surface Speed
- Wide Measuring Range: 6 to 30,000 RPM
- Last Value, Max Value, Min Value: automatically saved and recalled
- 3 Year Limited Warranty
